Our vision:

Focusing on individual needs when we create office and healthcare spaces as well as social and cultural environments

Offering competitive pricing in component or end-to-end solutions

Being reliable partners in custom made projects worldwide

Sustaining high technology, know-how, quality and ecology in production

Reacting immediately to customer needs and market requirements

Our future is the education of the coming generations so our task is to offer perfect space solutions on all levels of education

Garzon Furniture Corporation is the successor of a company established in 1949, which had the aim of being the number one in the residential furniture field. It was a booming company for more than 55 years in Hungary.

The company got fully re-structured in 2004 and since then with continuous investment in production, know-how and sales network set-up, it has become one of the leaders in the public and commercial furniture sector.

GFC is a member of the Garzon Group, which is a 100% Hungarian owned, financially stable company with a long term view on domestic and foreign markets.

The **GFC** production plant is the key site of the future strategy with wide production capacity and a really fast changing and flexible working method. We operate with the latest technologies in addition to that all of it is in the hands of highly qualified employees. It enables us to respond to any upcoming market demands.

These are the main public and commercial projects and targets that **GFC** focuses on:

- **Office and workplace furniture:**
own branded and custom made solutions
- **Healthcare**
- **Education**
- **Culture**
- **HORECA**
- **Retail store furniture supply**
- **Component supply**

SERVICES:

Project planning and management, budgeting, designing, supply services, production, logistics, installation, after sales follow up. **GFC** was the first producer to apply ISO 9001 in Hungary, and it owns an FSC certification.

Office and workplaces furniture

The 21st century requirements of the ideal working spaces are quite complex. Productivity ceased to be the single goal, instead the physical and emotional well-being of the employees came to the forefront as well as new technical facilities. Working methods and circumstances are

continuously changing, thus, not only ergonomic aspects but flexibility like adjustable workstations, mobile offices, transformable office spaces became essential. There is a growing accent on the well-being of employees in new offices. Consequently there is a stronger emphasis on canteens, gyms and recreational areas, hence interior designers and furniture producers must be well prepared for new demands.

GFC has been producing own branded office furniture since 2004, which today is composed of more than 12 product families regarding design. The main lines are operator and management furniture including tables, cupboards, storage systems, chairs, reception desks. Furthermore, various room division systems, recreational furniture or accessories are available too.

GFC is prepared to fulfil any custom made project requirements.

Alpha / Alpha III.

Alpha is an ideal system of office furniture with a wide variety of components which creates one's own, ergonomically and functionally most fulfilling operator station. Several tailor-made storage systems are available to make it suitable for any office type. This clear-cut, modern and styled furniture is a perfect solution for a simple yet ideal working environment.

Alpha III is made up of a complete range of office furniture recommended especially for administrative workplaces. The traditionally styled steel-framed desks can be expanded with coordinated accessories, as well as matching storage pedestals and cupboards.

Beta

Beta is a range of office furniture that offers excellent quality and space optimization. The panel legs impart the desks a solid and traditional appearance. These various kinds of desks can be arranged in a variety of ways to offer a versatile and multi-functional workplace. Matching cupboards and pedestals are available too. **Beta** components are available with different finishing and colours. Depending on the interior design the final result can be minimalist, happily colourful or classic.

Delta

Delta collection is the perfect furniture for any operator environment.

Delta could be easily adaptable for small or big work stations. The modular elements and accessories optimize the use of space, and wall-mounted storage units help organizing your office more easily than ever.

Ergonom

Ergonom is a range of office furniture designed to fulfil contemporary needs, with the highest respect for ergonomic and comfort expectations. The distinctive airy look springs from its graceful legs and leg suspension system. This range is an ideal choice for people working in customer service, open offices, call centres or customer areas.

Magnum

Gentle curves and metal inserts give the **Magnum** range its individual character. Timeless styling and powerful dimensions enhance its imposing and enduring presence. This range is ideal to create traditional manager workstation or conference room equipment.

Metallo

The main character of **Metallo** range is the graceful slim-lined desktop system with high-tech legs. The simple and elegant appearance offers the highest level of functionality. The easy to build tables enable 2 or 4 person workstations of conference table compositions.

Trend Nova

Trend Nova is a classic manager-furniture of masculine and elegant style.

Table desks come with panel legs and hidden cable routing, is ideal for the top-management. The table compositions might exceed 4 meters, with several shape and re-composition ways, and the same stands for storage and shelves units.

Sigma

The ergonomic style is enhanced by rounded corners, while distinctive powder-coated metalwork that connects the desktop to the leg panels makes this range aesthetically contemporary. Components are available in a wide range of shapes and colours, offering an infinite variety of desk configurations to create multiple workstations. **Sigma** is a perfect alternative for manager offices or mobile conference rooms.
